

AN OPPORTUNITY TO SHAPE A NEW PORTFOLIO MANAGEMENT FUNCTION

The Opportunity at a glance...

Our client has been established for the best part of a century and is one of the most reputable providers in its market. It is a values-driven organisation with a clear purpose and a strong social conscience.

Due to recent market changes and the arrival of several new executive directors, there is a brand new strategy and Target Operating Model (TOM) being executed, with a view to improved customer engagement and increased operating efficiency.

Highlights

1. An opportunity to contribute to a new Change Portfolio Management function at the centre of a brand new TOM.
2. An organisation that is truly aligned around a clear purpose, with a commitment to deliver change – it's 'immature' enough to make significant improvements, but 'mature' enough not to be chaotic.
3. A flexible working environment and a people-focused culture.
